AN INDEPENDENT NEWSPAPER IN PUBLIC SERVICE

New Zealand  
Chief Is V.C.

Holder of England's highest award for bravery in action, the Victoria Cross, Major-General Bernard Cyril Freyberg returns to the war as commander of the New Zealand Expeditionary Force that recently arrived in Suez to reinforce the Allied army in the Near East.

NAZI BOMB  
BRITISH SHIP:  
108 ARE DEAD

8,441-Ton Liner Also Machine-Gunned By Heinkel War Plane

LONDON, March 4.—Two trading London newspapers today suggested changes may be necessary in Britain's war leadership.

A Heinkel bomber swooped on the 8,441-ton liner, Domala, with bombs and machine-gun fire, probably killing 108 persons—the heaviest toll aboard a merchantman since the Lusitania.

The attack, the first by a German plane west of the Straits of Dover, occurred about 10 p.m. Sept. 3, but it and other week-end attacks on British shipping became known amid widespread discussion over the course of the six-month-old war.

Although the Daily Mail found "proof of our supremacy" in the activities of the Royal Navy and Air Force, it warned of the necessity of knowing "how we have the right men" in the government.

The Times also forecast changes in high places.

"New situations," it said, "are expected in time—perhaps no long time—and as in the past will with out doubt demand new methods and men."

The Mail said: "Men who don't survive the test of real war must be discarded."

"We believe Mr. Chamberlain will discover before long that he can very usefully replace a few of his ministers, both great and small."

REVIEW APPOINTMENTS  
It suggested that there might be necessary "very soon" to review some of the appointments of former secretary Leslie Hore-Belisha.

The Domala, towed to an uncharted point after having had her stern and shattered her bridge, was the first British ship victim of German warplanes.

Of 361 persons aboard, 20 Britons and 88 Indian sailors were feared lost. The ship carried 253 Lancasters being repaired from German raiders in Belgium. She sailed from Antwerp, Belgium.

THREE HITTS SCORED  
One eye-witness said the bomber carried full navigation lights and the Domala's crew mistook it for a British plane until it dropped to 40 feet above the ship and released the first bomb. The Admiral said four bombs were dropped, and three scored hits.

Clerk Sugged Over Head As  
Hodup Man Robs City Hotel:  
\$2,000 Stolen by Burglars

Daring hold-up of the night clerk at the Alberta hotel and a city confectionery, and the burglary of a downtown furniture store netted thieves a total of some \$2,000 in raids Saturday and Sunday. City police and R. C. M. Monday were continuing an intensive search in Edmonton and district for the marauders.

A shift-fisted, hard-hitting thief walked into the upstairs of the Alberta hotel, at the corner of 98 street and Jasper avenue, about 6 a.m. Sunday, knocked out Bill Demko, 29, night clerk in the hotel, with a "solar plexus" punch struck him on the head with either a sandbag or a pop bottle, looted the cash register of approximately \$80 and disappeared.

Skilled burglars wormed their way through a basement window into the premises of the National Home Furnishers, Limited, 9938 Jasper avenue, early Sunday morning, broke open the safe and looted it of more than \$2,000—of which about \$500 was cash and the rest money orders and cheques.

Holding a piece of piping so that it looked like the barrel of a gun, two tough young men walked into the Malta Confectionery at 1004 111 avenue Saturday night, told Mrs. Moorman, who was alone at the till of about \$10 and then, escaped into the night. Mrs. Moorman, proprietor of the store, told police she thought they had a gun, but later decided it was just a piece of pipe. Police believe it may be the same pair who held up C. T. Jamieson, grocerman who operates a store at the corner of 133 street and 101 avenue, last Monday night, taking \$48.

BRITISH L A D  
COMPOSES ODE  
TO NAZI CHIEF

British United Press  
LONDON, March 4.—Geoffrey Shakespeare, member of parliament for the Conservative Party, composed a poem in praise of the German leader today in the Dorchester hotel.

The poem, which was composed by his 12-year-old son, the ode, sung to the tune of "My Bonnie Lies Over the Ocean."

"My U-boats are under the ocean. My Grif Seal is under the sea. 'Hitler' is a common name. 'Go! Go!' mention Churchill to me."

A note accompanying the ode said: "Daddy, maybe you can give this to Mr. Churchill. (First Lord of the Admiralty) Winston Churchill."

BRITISH TROOPS  
CONCENTRATE IN  
KENYA COLONY

NAIROBI, Kenya, British East Africa, March 4.—After a motor trek of 200 miles, British troops concentrated in the war-torn Kenya colony today in the British East Africa.

Great Britain today disclosed the concentration of British troops in Kenya, which was a normal war-time procedure and had no connection with Italy's protest against clamping down of the Allied blockade on German coal shipments.

Meanwhile the Italian press was also critical of the British move on the high seas and branding them as "flagrant violation of postal regulations."

Their arrival completed the concentration in Kenya of troops from other British East Africa and central African territories.

Two Bulgarian Guards Killed On Rumanian Border  
BULGARIAN, March 4.—Two Bulgarian guards were killed and two Rumanian soldiers were wounded in a Bulgarian-Rumanian frontier shooting incident, it was learned today.

Here's Way Vote  
Went In General  
Elections 1935

No many requests have been received from Bulletin readers for the results of the provincial general elections of 1935 for the various constituencies that it has been decided to publish the official returns in that election in tabulated form.

The tabulated vote by districts will be found on Page 11 of this issue, and it is suggested that readers clip the list for reference. The Bulletin will publish a complete table of candidates in the present election, with the constituencies in which they are running, following nominations on March 11. Spaces will be left to record the vote secured by each candidate. Watch for it and contribute your returns with the 1935 figures.

221 NOW TAKE  
TO FIELD FOR  
2 ELECTIONS

Final Selection Of Sordid Candidates Due On Tuesday

Number of candidates contesting Alberta provincial and Dominion seats in the general election of 1935, in both provinces, was boosted to 221 over the week-end as more candidates were placed in the field.

Of the total, 160 are contesting the 37 provincial legislative seats and 61 are seeking the 17 Alberta seats in parliament at Ottawa.

Nominations in both provinces will be closed on March 11, and the final number of candidates to go to the polls will be known.

In Alberta, the provincial and Dominion elections will be held at 2 p.m. Monday next, March 11.

RECRUIT MEET

Final selection of Social Credit candidates will take place at a Recruitment Meeting today when the Spirit River, Grande Prairie, Peace River and Grande Prairie and the Peace River Dominion representatives will be chosen.

Social Credit will contest all 49 seats in the provincial election, and 17 seats in the Dominion election.

By parties the number of candidates in the provincial field follows:

Social Credit 52  
Independent Group 36  
Independents nominated by no group 30  
C. F. 10  
Liberals 10  
Conservatives 10  
Independent-Progressive 10  
Farmer-Labor 10  
United Worker of Alberta 10  
Communist 10  
By parties the Dominion candidates nominated are:

Liberals 17  
New Democracy (Social Credit) 16  
C. F. 10  
Conservatives 10  
United-Progressive 10  
Farmer-Labor 10  
Independent-Progressive 10  
Farmer-Labor 10  
United Worker of Alberta 10  
Communist 10

In addition to the four Social Credit candidates to be selected there are five Independent candidates, C. F. candidates yet to be named. There are seven Independents contesting the five Edmonton seats on the Citizens' slate and in Calgary six Independents on the Citizens' slate are contesting five seats.

Social Credit has named five candidates in Edmonton and five in Calgary.

Premier Abernethy returned to the office Monday after a week in the southern part of the province with an eye for eye and branding them as "flagrant violation of postal regulations."

In the last legislative William Abernethy, Premier of the province, was with the Edmonton Representative, Louis Bell, Minister of the Royal Canadian Army Service Corps, who represented the Peace River constituency in the last parliament on his way north and will be a candidate for the Social Credit nomination in the riding in the election of March 26.

Car Causes Havoc In Barber Shop

A bull docket's weak move have in a china shop when Walter H. Broadhead, 10411 92 street, got out of control while he was driving a car Saturday afternoon.

The Bulletin cameraman was on the job, and the picture shows what the store front looked like after the accident, with the wrecked car standing in front of the store. The driver, Walter Dwyer, of 11431 92 street, who was in the barber chair when the auto came through the window and who narrowly escaped serious injury as the car on which he was sitting was smashed.

Man Has Close Shave  
As Car Crashes Into  
City Barber's Shop

Nobody was hurt, but three men had a bad scare, and about 500 had more fun than a picnic when an auto driven by Walter H. Broadhead, of 10411 92 street, got out of control while it was being driven west on Jasper avenue about 5 p.m. Saturday, ran off the road, knocked down a lamp post and careened right into James Crowe's barber shop at 10541 Jasper avenue.

Only presence of mind on the part of Barber Crowe and fast jumping on the part of Walter Dwyer, 11431 92 street, who was driving the car, saved the shop from being a total loss.

Walter Dwyer, who was having his hair cut at the time, presented the accident from having more serious consequences.

Ministerial Order, upon provision of the Licensing of Trades and Businesses Act, 1937.

The automotive industry, photo-financing, commercial printing, cleaning and dyeing, and barbers are the industries affected.

NEW LICENSES  
In addition, new licenses are placed on the commercial creamery industry, which is termed a business outside the scope of the act in Edmonton, Medicine Hat, Calgary and Lethbridge are required to pay \$10 license fee, while in other parts of the province a rebate of six cents a gallon.

There will be no alteration in the policy respecting rebates to farmers and industrial users of fuel oil. These users pay the seven cent gasoline tax, but are given a rebate of six cents a gallon.

Barbers will pay \$1 for each business place operating a barber shop with one or two barber chairs. For those with more than two chairs the fee will be \$2.

Commercial printing firms, with one or two commercial printing houses established after coming into effect in the order in this city, Lethbridge, Medicine Hat or Calgary, will pay a license fee of \$3 for the first year, and not more than \$200. If sales exceeded \$25,000 the fee is \$10.

PRINTING FIRMS  
Commercial printing firms, with one or two commercial printing houses established after coming into effect in the order in this city, Lethbridge, Medicine Hat or Calgary, will pay a license fee of \$3 for the first year, and not more than \$200. If sales exceeded \$25,000 the fee is \$10.

Cleaning and dyeing establishments with one or two barber chairs. For those with more than two chairs the fee will be \$2.

Cleaning and dyeing establishments with one or two barber chairs. For those with more than two chairs the fee will be \$2.

Finns Hold  
Defences On  
All Fronts

By EDWARD W. BEATTIE, JR.  
British United Press Exclusive Cable to the Edmonton Bulletin

HELSINKI, March 4.—A war communique today announced that Finnish troops fighting desperately before Viipuri had repulsed a Red army attempt to cross the Bay of Viipuri and encircle the defending army.

The Finns also announced that 1,200 Russians were killed in an unsuccessful attack at Kollaa, on the central front, and that the Russian troops again had fallen back from Naantali, on the far northern front. The Russians had suffered in Naantali last week. The communique said that the Finnish lines were holding on the western (Viipuri) end of the Mannerheim defenses and that the Russian had suffered particularly heavy losses where they were repulsed at Ahtari.

On the Karelian Isthmus, the Russian offensive, the communique indicated, the Finns had repulsed their position, a line running through Viipuri and were standing firm.

1,200 KILLED  
Russian attacks also were beaten back in the Pulkoskari sector, northeast of Lake Ladoga, and still further east, on the Karelian Isthmus, 1,200 Russians were reported killed.

No explanation was given of the Russian withdrawal from Naantali except that they had "retired about two miles northwest."

On the Karelian Isthmus, the communique indicated, the Finns had repulsed their position, a line running through Viipuri and were standing firm.

RUSSIAN PRESIDENT  
The Russian president was not in fighting in the vicinity of Viipuri, dispatches indicated that the Russian president was being escorted on the eastern half of the Mannerheim line, both the eastern half of the Finnish line, along Lake Ladoga, and the Lake Viipuri.

On the Karelian Isthmus, the communique indicated, the Finns had repulsed their position, a line running through Viipuri and were standing firm.

On the Karelian Isthmus, the communique indicated, the Finns had repulsed their position, a line running through Viipuri and were standing firm.

man had three sets of twins. The difficulty was to know what to call them. The first couple were daughters, and he agreed to call them Kate and the other Duplicate. The second batch were boys, and the difficulty was solved by naming them Peter and the other Reiter. They had another batch, and this time again they were boys. It was settled that one should be called Max and the other Climax.

## First Fashion Show of Season Gives Foretaste Of Clothes To Be Seen This Summer

FIRST traces of springtime in the air found an echoing note in Monday afternoon in the day room of the Victoria Hotel, where in the Specialty Show for women a preview of fashions for the spring season and on into the summer called the interested attention of smartly dressed women. Sitting casually through the doorway of the stage down the winding staircase, and around the street show, the models displayed the latest style models, ensembles and accessories.

## Music Pupils Present Fine Club Recital

ALWAYS interesting by reason of the insight it gives into the possibilities of this city music, the material which in future will provide the major portion of recital artists, the students of the Victoria Women's Musical Club, Saturday, fully maintained the fine quality of its professors.

Each year the Musical Club devotes one of its regular meetings to students, when prominent talent is displayed for the dual purpose of giving the embryo artist an opportunity of acquainting themselves to public performance and of affording club members a chance of hearing just what results are being accomplished in city studios by teachers and pupils.

### FINE QUALITY

The Saturday program was of unusually fine quality, and the student efforts are linked with that of last year as being the best to date.

Bearing in mind that the young artists are still students, the quality of performance was high and the students ranged all the way from six-year-old Billy Hendry, who sang a solo, to young men and women undergraduates of the University of Alberta.

The program was well varied and although the students were of the regular series, interest was maintained until the end. Each recital group, which proved effective in a warm cordial reception.

Conducted with success and precision by Ray LeRoy Olsen, the junior class orchestra of the National Institute of Music, the arrangement of a Chopin Prelude and Gipsy Air by Mrs. Hendry, conducted by Mrs. Olsen's orchestra, are always welcome and the orchestra as a whole showed promise individually and collectively.

Gordon Wright, tenor, sang Sanderson's Green Pastures and gave a splendid recital.

Hilda McKewen, a charming girl's voice sang Fiddie and Arne's Where the Wildflowers Grow, and a warm cordial reception.

Dean Parker, violin, sang Brahms' Lullaby and No. 2 and the violin movement of Beethoven's Opus 10, No. 1.

Vernon Goodwin, boy soprano, sang the hymn "Jesus Christ, the Son of God" and Peter Warlock's "A Child's Song."

### SIX-YEAR-OLD ARTIST

Billy Hendry, violinist, played Dorothy Hewell's "A Snowy Day" and P. H. Ramsey's "The Little Waltz." Only six years old and playing a small six-year-old violin, Master Hendry acquitted himself admirably. His intonation was commendable, while his bowing and phrasing were well done. For good measure he added a few left-hand pizzicatos notes, which proved effective and altogether gave a highly promising performance.

Norma Madril, contralto, who was recently in the U. of A. production of "The Sound of Music," sang "The Sound of Music" and "The Sound of Music" and "The Sound of Music."

With a flair for the brilliant, Chester Zalesky, pianist, played Cyril Scott's Dance Nègre. Doris McKewen, equally well known as pianist and organist, sang charmingly, Peter de Ruiter's "Hear a Forest Spring in a Lovely Land" and "Spring in a Lovely Land."

Saida Faulkner, pianist, played Chopin's Le Vaisseau Fantôme and the Brahms Rhapsody in G Minor, Opus 78, No. 2.

### BASS SOLOIST

Pat Blackstock, bass, whose performance as the Lord, Chorus, in the U. of A. production of "The Sound of Music" was outstanding, sang "The Sound of Music" and "The Sound of Music."

# BEAUTY GIFT IS FIRST-AD TO SHUT-INS

## Waterless Shampoo Makes Ideal Gift For Convalescents And Travelers, Too

By ALICIA HART

GIFTS which will enable your convalescent friends to emerge from the hospital with skin, hair, nails—and therefore morale—in pretty fine condition are highly recommended.

Nothing is more demoralizing to a convalescent than the day-post-thrilling look she sees on the faces of people who come to call during her last few days in the hospital or immediately after she gets home.

It would be a good idea, for instance, to let one of your gifts be a really good hairbrush, attractively packaged with perhaps one fresh flower tucked into the ribbon bow on the outside of the box. Without much difficulty a nurse can be encouraged to brush the patient's hair at least once a day and so bring back its natural sheen which illness took away.

A waterless shampoo is another beauty gift that's sure to be appreciated. One preparation of this type comes in a bottle, requires no water for washing or rinsing. It is simply to be poured over hair men whisked until a light lather is formed. Afterward, the hair is dried with a clean, rough towel. Waves and ringlets may be coaxed into place when the hair is partially dry.

The waterless shampoo cleans the scalp perfectly, leaves the hair soft, fluffy and free from oil. The slightly medicinal odor which remains after the shampoo will disappear within a few hours. Incidentally, this preparation is certain to become popular with travelers as well as with women who would like to be able to freshen up their locks at home at a moment's notice.

BY AGNES AS

BACK RUB

A bottle of unscented or very lightly scented cologne, both power and a large cube of soap is right, matching odor. Or a box of toilet soap in assorted scents. Or bath powder and a new sachet bottle to keep among nightgowns and handkerchiefs.

Appropriate, too, would be a bottle of lubricating oil or cream for nails which are dry and brittle as a result of fever. If the patient dislikes liquid polish, or if you suspect that neither the oil nor the cream is safe at applying it, how about a good butter and some paste or powder polish to be used in conjunction with buffing?

If she has gettles and dislikes in moisture preparations, you might make up a box instead of buying a kit. Fill it with entry boards, cotton and rouge sticks, of course, her favorite brand of nail polish, brightly buffing powder and hand cream.

No one worried. But now for the last. If the patient is a child, a little longer than two years, there must be a reason. The bath can be time-consuming, and it is a good idea to have a child's bath tub. If you know her well enough and have a perfect sense of humor, the idea of sending or taking a bath tub to her hospital room, or when she practically well, a jar of marmalade. He is sure to be good for her skin as well as her spirit.

Every man wants a wife who is a companion to him. He wants her to have education and culture to be able to talk interestingly. The first question that any man ever asks about a strange woman is about her looks. Is she pretty? And yet...

He wants a wife who is as good a financier as any banker. He wants a wife who will know how to pinch the pennies and get a hundred and twenty-five percent out of every dollar, because he knows that whether a man is sitting on East Street in his middle age or wallowing in debt up to his neck, depends on a single thing, upon whether his wife was money-wise or a silly little spendthrift.

He expects his wife to rear his children and develop them into fine men and women. He expects her to be enough of a doctor to look after their health and keep them well and handy enough of a judge to hold a strong hand over them and keep them in the strait and narrow way.

Every man wants a wife who is a philosopher. He wants a wife who can rationalize marriage and balance its gains and its losses and make a good working average. He wants a wife who won't weep and wail over every hardship.

He wants a wife who can take trouble, on the chin and laugh off misadventures instead of tragedies out of them.

Every man wants a wife who is a philologist who will understand him, and knows why he acts like he does. Every man wants a wife who is a sleuth who can find his lost cuff buttons and locate his fishing tackle that he hasn't used for three years.

And that takes a smart woman to do these things. And perhaps the cleverest thing about most wives is that they never let their husbands know how clever they really are.

Today's Popular Design

By CAROL AINES

DESIGN No. 3164—TABLECLOTH MADE OF MEDALLIONS

Choosing individual medallions is one of the quick tricks in crocheting work, because one motif takes only 15 minutes.

Pattern No. 3164 contains list of materials needed, illustration of stitches and complete instructions.

To order this pattern, write your name and address on a piece of paper and send with 15 cents in coin to Needle-Craft Department, The Edmonton Bulletin, Edmonton, Alberta.

The simplicity of the waterless shampoo makes it ideal for convalescents and travelers. One such preparation is merely poured on dry hair and whipped into a rich lather, as at extreme left. No rinsing is necessary, hair simply being dried with a rough towel, as is left above. At right above, is final step. Hair clean without benefit of water, the ends are curled and waves re-arranged.

## Raising A Family

Here are some items for the parent of a baby in his second year, or after his first birthday.

Is the development of a small Betty or Benny up to standard? Perhaps it's better than standard. Or slower.

If the latter, let me warn you not to jump to conclusions. Some of our very smartest children are those who take their time.

I had one baby who walked at eleven months. Another at seven months. Another at seven months.

One R. Burton, parent, wrote me a letter about a child taking more time to get up.

No one worried. But now for the last. If the parent is a child, a little longer than two years, there must be a reason.

18 Months. The bath can be time-consuming, and it is a good idea to have a child's bath tub.

## Family Likes Getting On This Bread Line

By MRS. GAYNOR MADDOX

The club members of the "Bread Line" are here to see their "bobby" recipes. He says he just naturally likes homemade bread for his family.

APPLE RECIPE  
Three-quarters cup sugar, 1 cup shortening, 1 cup whole wheat flour, 1 cup white flour, 1 egg, 1 teaspoon baking powder, 1/2 cup apples (ground with 1/2 cup sugar), 1/2 cup raisins, 1/2 cup nuts, 1/2 cup fruit (chopped nuts).

Cream shortening and sugar, add eggs and beat. Add apples, nut milk and soda. Stir together flour and baking powder, add and beat until mixture is smooth. Bake in moderate oven 130 degrees F. 15 minutes.

BANANA RECIPE  
(One 8-1/2 inch loaf)  
One-half cup fat, 1 cup sugar, 1 egg, 1 cup bran, 4 or 5 large ripe bananas, mashed, 1/2 cup flour, 2 teaspoons baking powder, 1 teaspoon salt, vanilla and cream.

Cream fat and sugar, add egg and thoroughly stir in bananas. Add flour and baking powder, add and beat until mixture is smooth. Bake in moderate oven 130 degrees F. 15 minutes.

Allow to cool before cutting.

# FRANCE HAS WILL TO WIN LETTER SAYS

Citizen Receives News  
From Former French  
Govt. Member

Written from France by a former member of the French government, and one of the leaders of that country during the war years of 1914-1918, a letter received by an Edmonton businessman today shows that the "will to win" in France is strong, and that the average Frenchman is confident of ultimate victory.

The letter is of interest as showing how a Frenchman, with the enemy at his door, reacts to the situation. Here are extracts from the letter which was handed to The Bulletin for perusal:

"With regard to the war, it is difficult to arrive at a clear forecast.

"As to the issue, there can be no doubt, for England and her Dominions, together with France, combine such a powerful military force that it seems absolutely impossible that Germany can do otherwise than be defeated.

## BAD DIPLOMACY

"The political diplomacy of the neutrals such as Belgium, Holland, Sweden, Norway and Romania appears to me to be very weak, and even more so for themselves than for us to whom it only means a prolongation of the conflict. The neutrality of the neutrals is a double-edged sword. It is a sword which can be used by either side at the moment when Germany was at the height of its collapse in Poland, and in a few days we would have been on the left hand of the problem nullifying for ever and for all, the Siegfried Line. Now the problem is not the same.

"According to my own view the Belgian defenses are not worth much when compared with the Maginot line which is all in its interests and purpose, invincible, so that the Belgians should accept the western front to be through Holland and Belgium and in the case where the Belgian line is forced the main battle will take place on Belgian territory, and then she would pay for her neutrality to maintain her neutrality.

"I am no longer in active political life, but if, in fact, as in the last war, I would devote my energy to the cause of my country, I should bring about an end to the Russian by 'Mourmansk', then should no longer receive immunity which would embarrass her terribly as well as Germany, and in the case that we would be able to furnish all kinds of supplies—these being possibly—like the famine Famine, and I would also endeavor to cause an attack to be made on the oil wells of Russia.

"In that way we would have both Russia and Germany in our hands at the end of a few months, for they would then have to depend completely on Russian supplies, and Germany would take the supplies from Allied aerial bombardment which would not be a very difficult task. I would judge that the Russian production would not be too far from the German production, and the Allies would be able to supply the Germans and Russians. I am quite prepared to believe that the Allied War Council has studied all the aspects of the problem and that it will be long before it arrives at a decision in this connection.

## MORALE HIGH

"The morale of France is exceedingly high, even though some of us are beginning to become impatient because of lack of energetic decision. The cannot understand why we are tempering with Russia, my enemy, should by that means be at war with us, for a very good reason, that we are behaving as brutally toward Poland, a country which is not a threat to our security.

"Needless to say, the average Frenchman, who is full of common sense, has a very high opinion of the Allies, and a past understanding the appalling loss of time and the expenditure of additional funds, transfer as the result means a concentration there can be no doubt but victory should be gained with the least possible cost.

Tracks were not of standard gauge on early railroads. Each section of the country set its own standard.

# Wilkins Planning Use Submarine In Weather Charting

Tall, bearded and enthusiastic, Sir Hubert Wilkins, world famous scientist and explorer of both the Arctic and Antarctic, arrived in Edmonton Monday to determine whether he can make arrangements here for the building of the submarine he intends to use as a weather observing base in the middle of the Arctic ocean, half way between the Alaskan coast and the North Pole.

If it is possible to take the under-  
water route, it is a long and arduous  
task. In diameter—north to the  
Arctic Ocean, it is 1,000 miles. It will  
be built either on the Pacific  
coast or in Alaska. There are  
many reasons why it would  
be better to go north via the  
Mackenzie River, Sir  
Hubert declared.

Sir Hubert said he selected the submarine—while it is a special and simplified design—as a medium for travel and observation in the Arctic because it is "the safest, most convenient and thoroughly satisfactory method of making a side kind of unit that I could think of for the particular work I have in mind."

Because the Arctic ice pack is ever moving, it is a real problem to establish a base on a selected location. In fact, there are no islands within 630 miles of the North Pole. Sir Hubert wishes to make his observations while he is using in long range weather forecasting, and in an attempt to solve the mystery of the "Horse" diamond.

By observations were to be made from the selected location from a base. It is the largest ever to be found, he stated. It was cut by L. X. Ascher, an American cutter, in 1908 for George C. Mackenzie, a Canadian explorer.

It is a large diamond of about 100 miles in diameter and is made of a material which is not known. It is a large diamond of about 100 miles in diameter and is made of a material which is not known.

# Pioneer Dies

Known death occurred Sunday.  
Pioneer died at his home in  
Edmonton, Alberta, on Sunday,  
March 3, 1940.

Charles C. Batson, 77, of 16422  
Avenue, pioneer contractor in  
Edmonton and resident of the city  
for the past 38 years, died Sunday.  
Born in Tinsbridge, Wells,  
England, on April 28, 1863, he came  
to Winnipeg in 1882, moving to  
Edmonton in 1902. He built 75 per cent of the schools here  
and was responsible for many  
more of the public buildings.

He was a past president of the Edmonton Builders' Exchange, Northern Alberta Builders' and Old Timers' Association, Edmonton Exhibition Association and the St. George's Society. He was a member of the Masonic Order.

He is survived by his wife, three sons, Charles, Edmund and Paul, and Jack of Buffalo, N.Y.; three daughters, Mrs. F. M. Heavly of Vancouver, Mrs. Douglas McKellar of Rochester, Ala., and Mrs. N. M. McLeod of Edmonton; and one son, Mr. George Card of Maple, Wabigoon, and ten grandchildren.

Funeral arrangements will be announced later.

He was a past president of the Edmonton Builders' Exchange, Northern Alberta Builders' and Old Timers' Association, Edmonton Exhibition Association and the St. George's Society. He was a member of the Masonic Order.

He is survived by his wife, three sons, Charles, Edmund and Paul, and Jack of Buffalo, N.Y.; three daughters, Mrs. F. M. Heavly of Vancouver, Mrs. Douglas McKellar of Rochester, Ala., and Mrs. N. M. McLeod of Edmonton; and one son, Mr. George Card of Maple, Wabigoon, and ten grandchildren.

Funeral arrangements will be announced later.

He was a past president of the Edmonton Builders' Exchange, Northern Alberta Builders' and Old Timers' Association, Edmonton Exhibition Association and the St. George's Society. He was a member of the Masonic Order.

He is survived by his wife, three sons, Charles, Edmund and Paul, and Jack of Buffalo, N.Y.; three daughters, Mrs. F. M. Heavly of Vancouver, Mrs. Douglas McKellar of Rochester, Ala., and Mrs. N. M. McLeod of Edmonton; and one son, Mr. George Card of Maple, Wabigoon, and ten grandchildren.

Funeral arrangements will be announced later.

He was a past president of the Edmonton Builders' Exchange, Northern Alberta Builders' and Old Timers' Association, Edmonton Exhibition Association and the St. George's Society. He was a member of the Masonic Order.

He is survived by his wife, three sons, Charles, Edmund and Paul, and Jack of Buffalo, N.Y.; three daughters, Mrs. F. M. Heavly of Vancouver, Mrs. Douglas McKellar of Rochester, Ala., and Mrs. N. M. McLeod of Edmonton; and one son, Mr. George Card of Maple, Wabigoon, and ten grandchildren.

Funeral arrangements will be announced later.

# Vote Enumeration Competition Is Due Here Monday Night

## CHURCH HAS NEW SPIRIT PASTOR SAYS

### Tragedy Brings Out Devotion—Army Holds Prison Sunday

During the tragedy of this current decade, the church has shown a new devotion and understanding, according to Rev. C. F. Tarkenton, Sunday as well as the church at Holy Trinity Anglican Church.

"In these times of stress," he said, "the church has been called upon to show its objectives, her problems and her methods toward alleviation of those problems. The church has been a greater study of the scriptures and provided more and better apostles."

#### NEARER TO PEOPLE

The church, he stated, has in this time come nearer to the men, women and young people in the congregations with their individual problems, and has provided them with a more personal, sacrificial giving of themselves and of their substance toward the greater glory of God.

The speaker told of the work of the missionaries in Western Canada, working in the drought area of Saskatchewan and in large districts in Alberta.

The missionaries, covering such large distances, work under tremendous difficulties, but they do not find the difficulty less a challenge and appeal. The ministers of the Gospel have not faltered in their tasks, he declared.

#### WELSH SERVICE

Special service commemorating St. David's Wales, was held at

Knox United Church with Rev. Dr. G. A. Macdonald delivering the sermon. During the evening service there was a festival in tribute to the patron of Wales, David Jones, and the hymns were sung. The St. David's Male Choir, under the leadership of Jack Williams, took part in the Sunday evening service at First Baptist Church.

A religious drama "Into Thy Kingdom" was presented at the McDougall Church Sunday evening by the Highland United Church Players.

"Living Bread For Dying Men" was the subject chosen by Rev. C. S. Loring, Sunday morning, when he preached at Central Lutheran Church.

At Garrison United Church, an offering of money for the support of the morning service, Rev. Dr. R. H. Ramsey, minister of the church, spoke on "The Elders and the Church," during the service.

**Salvation Army Has Service At Prison**

Special services were held in the Fort Saskatchewan jail on Sunday by the Salvation Army in keeping with a similar offering by Army workers throughout Canada and the United States.

Maj. E. T. Waterston and Mrs. Waterston were in charge of the service at the Citadel during the morning, when Mrs. Waterston was the speaker. During the afternoon the Citadel silver band, under the leadership of bandmaster Frank McCready, gave a musical program at the Fort Saskatchewan jail, and the congregation addressed were also in both the women's and the men's prisons.

In charge of the services at the Citadel Sunday evening were Maj. and Mrs. Waterston, the former being the speaker. He told of a number of incidents in prisons where the Army has worked.

Children of Nassau, in the Bahamas, buy sugar cane by the ton or yard with a penny a foot as the usual rate.

## EDMONTONIANS ARE GENEROUS TOWARD FINNS

### Tag Day Nets \$1,800—Gratitude Expressed For Support

Edmontonians gave generously to the tag day Saturday for the support of Finnish relief funds to assist the refugees in Finland. The amount received, installed approximately \$1,800.

A letter from the Finnish Relief Committee in charge of the tag day, Chairman, Rev. J. A. Vickman, minister of the Swedish Lutheran church, vice-chairman, Rev. C. N. Loring, minister of the Central Lutheran church, secretary, A. W. Erickson, treasurer, E. L. Lovell, honorary advisers, Major-General Hon. W. A. Griesbach, C.B.M.G., D.S.O., V.D. K.C.

A letter from the Finns of Edmonton, expressing gratitude for the support of Edmontonians to Finland's cause, follows:

"We, the Finnish Friends of Finland in Edmonton, want to take this opportunity to express, through the Bulletin, our very deep gratitude and appreciation to the many organizations and individuals in Edmonton who so generously and unselfishly have given to assist the cause of Finland."

#### THANKS GIVEN

We particularly want to thank Major-General Hon. W. A. Griesbach, C.B.M.G., D.S.O., V.D. K.C., and the Scandinavian committee in charge of the tag day for the successful tag day which they so ably conducted on Saturday.

We wish to thank all those individuals who so generously contributed to this fund, and we wish to express our thanks to the Sons of Norway, Edmonton Lodge, for the dinner which they held in aid of our cause.

We feel grateful and deeply indebted to Ross Cameron and the First Presbyterian church for the special service held in honor of the Finns in the City of Edmonton, the Central Lutheran church for its moving and kind message over the Lutheran Radio Hour to CFRN, the programs of Finnish music and the public list of donors for the tag day, and also to the University of Alberta for their splendid efforts in helping.

**APPRECIATION**

There are many others whom we should mention by name and we want them to feel that we appreciate very deeply all that they have done. The people of Edmonton have shown in a very real way their sympathy for our unfortunate country. We ourselves are too few and scattered to have taken the initiative for such activities as they have been arranged by the organizations and individuals mentioned above. Again we express our gratefulness to all.
